

ANDRÉS DAVID CASTRO CHAVARRIA

Web Developer & Web Designer

SUMMARY

I'm a Senior Web Developer I have 8 years of experience, I have excellent and solid knowledge in Web Standards, HTML/HTML5, CSS2/CSS3, Javascript, Actionscript 3.0, XML, and PHP. I have experience working in Creative agencies as web developer; I've been worked in projects for clients handed by my local agency, like General Motors, Nextel, Sony FIFA world cup microsite 2010, OfficeMac microsite, and others.

SKILLS

Expertise and knowledge in HTML/HTML5, CSS2/CSS3, jQuery, JSON, XML and front-end development technologies (JavaScript Frameworks, XML, PHP).

Ability to translate design into semantic markup and CSS with pixel perfection.

Experience integrating HTML-based content in flash, client back-end systems, CMS (i.e., Joomla, textpattern.).

Solid understanding of cross-browser/platform issues and code solutions.

Sharp attention to detail and writing clean, readable, reusable code.

Understanding of architecture and optimization of web-based applications.

Experience using agile as a development methodology for we-based applications.

Awareness of social culture and understanding of implementation procedures and techniques.

Ability to understand and learn new technologies and programming languages.

Solid knowledge in the creation of rock solid HTML newsletters and templates campaigns.

Familiarity with popular APIs such as Facebook, Twitter, Google, etc.

Familiarity with version control (i.e., SVN, Git, Clearcase).

Proficient in Adobe Creative Suite software (particularly in Photoshop, Illustrator, Dreamweaver and Flash) and experience in Coda and Eclipse.

Familiarity with all Microsoft Office applications, including Word, Excel, Access, PowerPoint software applications.

PERSONAL QUALITIES

Friendly, hardworking, funny, passionate.

I have a strong work ethic.

Learn new things quickly.

I'm perfectionist and want everything to be done right the first time.

I have full commitment to my work.

I'm a team player.
